

USER GUIDE FOR STUDENTS – ATTENDANCE MONITORING SYSTEM

Attendance Management App will automate the attendance process & will enable the students to be well informed about their attendance. In case the student is not carrying a smartphone they can get their attendance marked manually by the teacher.

Download Link for the App

The app for students can be downloaded for android from

<https://play.google.com/store/apps/details?id=com.AttendanceSimplified.vaibhav.dtustudentapp>

& IOS from

<https://itunes.apple.com/us/app/dtu-attendance/id1199427536?ls=1&mt=8>

To use the student app follow the below mentioned steps –

FOR ANDROID USERS

1. Steps for One time Initialization

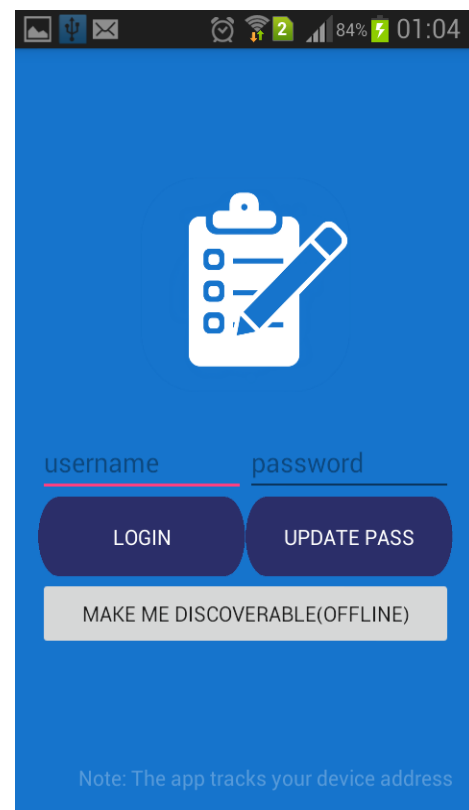

Before Starting the APP make sure you have renamed the Bluetooth as 2k17/Batch name/ Roll no.
For Example (2k17/a1/01), (2k17/a1/10) in small cases.

To change the name of Bluetooth go to Bluetooth settings & rename the device.

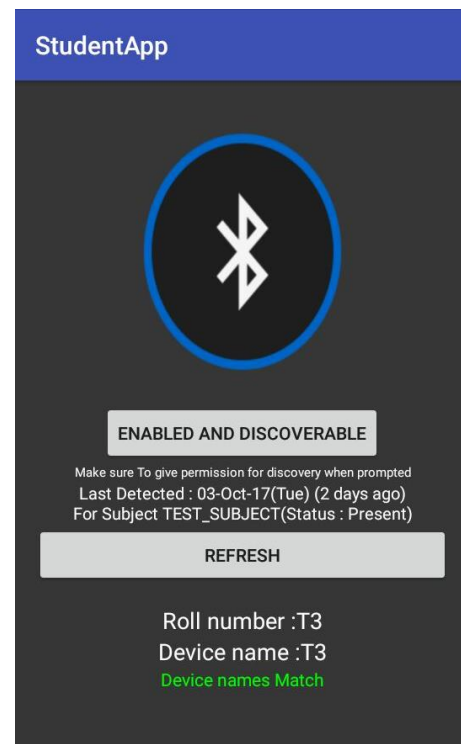

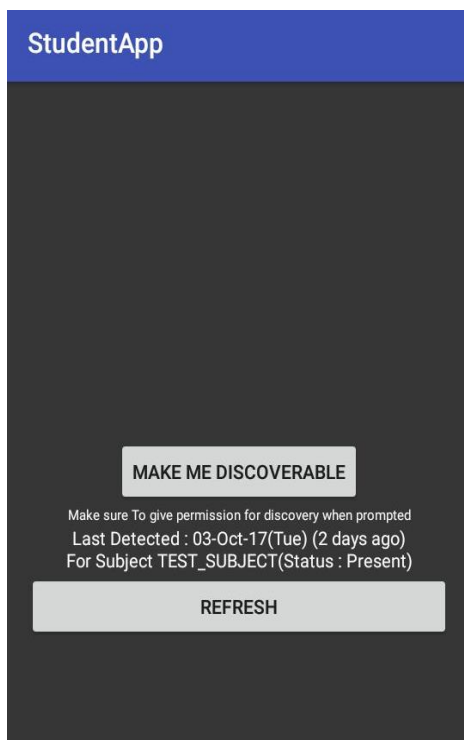

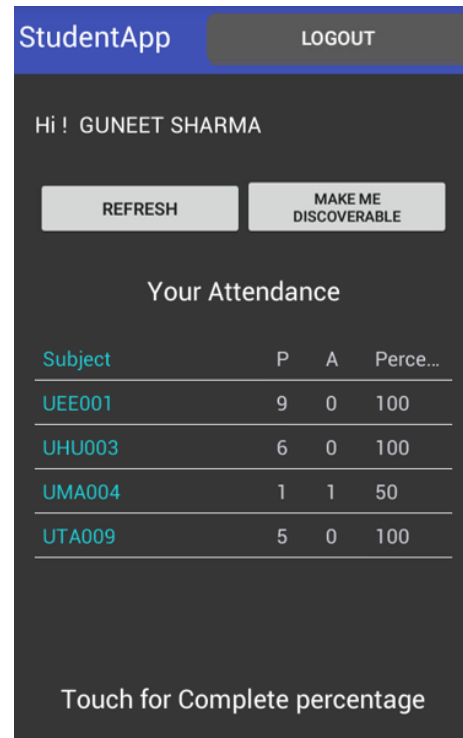

In mobiles which don't have a facility of renaming the Bluetooth go to Settings > About Device > Device name & change the device name to the roll no. as mentioned in the above format.

2. For Marking & Monitoring Attendance

Enter your roll no. (Case sensitive) in username & enter 1234 in the password. Students are advised to change their passwords.

- Student can check their past attendances via the student app.
- When the Teacher is ready to take attendance, the student is supposed to get ready for the process by clicking on make me discoverable button, then in the following screen, touch on **“Make me discoverable”**, if your device's Bluetooth name is same as your roll number, then you will see "device names matched" and you are ready. To get marked present, stay on this screen until teacher is done taking attendance.
- However if the device names do not match, you will see a prompt **"Device names do not match"**, in such case go to setting->Bluetooth and change your device's Bluetooth name to your respective roll number and try again the same steps to see "device names match" in the make me discoverable screen.
- Once submitted by the teacher, the attendance will be reflected in the student app in a matter of minutes after clicking the **“Refresh button”**.

FOR IPHONE USERS

1. Steps for One time Initialization

Before Starting the APP make sure you have renamed the Bluetooth as 2k17/Batch name/ Roll no.

For Example (2k17/a1/01), (2k17/a1/10) in small cases.

To change the name of Bluetooth go to Settings > General > About > Name & rename it as 2k17/Batch name/Roll no.

For Example (2k17/a1/01), (2k17/a1/10) in small cases.

2. For Marking Attendance

For being marked present, open the Bluetooth Screen in your iPhone & press the “**Bluetooth Button**”.

You will see "Now discoverable as <your roll number>", Stay on this screen till the teacher is taking attendance.

3. For Monitoring Attendance

To check your attendance open the app, login with your roll no. & enter 1234 in the password.
